

Erratum in Arianta 6

Haring E., Pinsker W., 25 coauthors & Sattmann H. (2018): Snails on the rocks. Arianta 6: 31-40.

- (1) In Fig. 1 the picture of rock face 1 was wrong.
- (2) Numbers in Tab. 1 were distorted in the summary line.

Corrected Fig. 1 and Tab. 1 can be found here:

Corrected Fig. 1. Study sites (rock face 1, rock face 2, rock face 3).

Corrected Table 1. Species counts and mark recapture calculations. m = specimens counted on day 1 at the sampling area (sum of all sections); % = frequencies of species; c = number of animals recorded on day 2; r = number of marked animals recorded on day 2; N(calc) = number of specimens calculated from mark-recapture data (only for species with counts > 20; rounded); s = standard deviation; Z(obs) = sum of observed individuals (day 1 plus day 2)

Species	m	%	c	r	r (%)	N (calc)	s	Z (obs)
<i>Chondrina avenacea</i>	136	28.6	129	109	80.1	161	6.1	156
<i>Cochlodina laminata</i>	3	0.6	3	2	66.7	-	-	4
<i>Neostyriaca corynodes</i>	50	10.5	29	26	52.0	56	3.5	53
<i>Clausilia dubia</i>	38	8.0	24	17	44.7	54	7.0	45
<i>Pyramidula pus/sax</i>	196	41.2	252	155	79.1	319	15.9	293
<i>Orcula gularis</i>	49	10.3	30	20	40.8	74	9.5	59
<i>Chilostoma achates</i>	2	0.4	2	0	0.0	-	-	4
<i>Petasina unidentata</i>	1	0.2	3	0	0.0	-	-	4
Sum	475	100.0	472	329				618
